Water Resources Engineering graduate with hands-on experience supervising utility and construction projects from initial design through completion. Inspected and monitored Reverse Osmosis treatment units and produced source catchment design maps in AutoCAD for a utility serving 844,000 residents. Supervised a Rp. 2,49B structural strengthening project end to end including scope, budget, quality and safety with zero workplace accidents, and coordinated vendor negotiations across Rp. 1B+ in public works tenders.

EDUCATION

BRAWIJAYA UNIVERSITY

Malang, East Java

Water Resources Engineering / Bachelor of Engineering (B.Eng)

2021 – 2026

- GPA : 3.29/4.00
- Undergraduate Thesis Title : The Impact of Population Growth on Domestic Blue Water Scarcity in Kecamatan Lowokwaru
 - Projected water demand and scarcity index through 2030 using geometric population growth modeling
 - Designed and conducted a **100 respondent** household survey to estimate domestic water footprint
 - Conducted SWOT and IE Matrix analysis to formulate water resource management strategies for a regional water utility company
 - Collaborated with water utility practitioners for expert validation and cross referencing of research findings
- TOEFL ITP Score : 600 (64 Listening Comprehension, 56 Structure and Written Expression, 60 Reading Comprehension)
- Relevant Courses : Water Resource Management, Wastewater Management, Water and Land Resource Conservation, Green Building Planning, Engineering Statistics, Construction Management, Occupational Health and Safety.

WORK EXPERIENCES

CV. Rizki Giat Perkasa

Malang, East Java

Operations Staff

Aug 2024 – Feb 2025

- Managed client and government stakeholder relationships throughout project acquisition and tender processes, occasionally leading discussions to secure public works contracts.
- Coordinated quality control, documentation, and closeout across concurrent public works across Kota Malang, including the rehabilitation of 8 city parks and heritage road rehabilitation covering Jl. Ijen, Jl. Semeru, Jl. Bromo, and Jl. Soekarno – Hatta with combined value of **+1 billion Rupiah**.
- Represented client and government interests during site visits and inspections, resolving on-site issues and keeping cross functional teams aligned.
